

Fruit Fly Prevention

**NO FLIES
ON US!**
*Let's stop Queensland
Fruit Fly*

DO YOU HAVE A FRUIT TREE OR VEGETABLE PATCH IN YOUR GARDEN?

If not managed Queensland Fruit Fly host trees & plants provide breeding grounds for the pest

Help reduce the spread of fruit fly

- Set traps & check weekly
- Protect fruit with netting, traps, insecticide, bait spray
- Pick up fallen & rotten fruit

Funded by the Victorian Government's Managing Fruit Fly Regional Grants Program
