

## Fruit Fly Prevention

**NO FLIES  
ON US!**  
*Let's stop Queensland  
Fruit Fly*

# THE QUEENSLAND FRUIT FLY IS A THREAT TO THE REGION

Spring is the time to:

- Set traps & check weekly
- Spray high risk fruit if appropriate
- Remove & destroy any unwanted late autumn or early spring fruits
- Remove host plants if you don't think you'll be able to control QFF in your garden

**FOR MORE INFORMATION ON MANAGING QFF  
CONTACT YOUR COUNCIL**
