Our Story

The Ruby Saltbush is a native plant that is indigenous to our region and we grow it right here at Billabong.

We think this pretty little saltbush fits right in here at our social enterprise! Like Billabong, the quaint succulent is all about sustainability and tolerance. Its bright ruby coloured fruits are a real jewel in the crown, just like the achievements of our supported employees with a disability that grow your plants.

The Ruby Saltbush flowers and fruits year-round and is a bush food therefore it also adds culinary value to our menu.

The Ruby Saltbush depicts the flavours of life from sweet through to salty!
